SNR against D for three amplitudes, f0 = 0.01
A = 0.1, SR peak D = 0.132
A = 0.2, SR peak D = 0.132
A = 0.3, SR peak D = 0.101
output SNR at f0 (dB)
noise intensity D (dimensionless)
SNR against D for four frequencies (bandwidth differs, see docstring)
f0 = 0.005, SR peak D = 0.088
f0 = 0.01, SR peak D = 0.115
f0 = 0.02, SR peak D = 0.132
f0 = 0.05, SR peak D = 0.199
output SNR at f0 (dB)
noise intensity D (dimensionless)
SNR over (D, f0), 64 periods, 10 trials
peak D per f0
signal frequency f0 (dimensionless)
noise intensity D (dimensionless)
output SNR at f0 (dB)
