

E10 foundation: 2-D grating, A = 0.7 below theta = 1.0; squares mark the panels above (top-left 64 x 64 shown)

simulated, 32 frames of 128 x 128

theory, |sum p e^(-ik.x)|^2 / sum p(1-p)

peak at sigma = 0.69, 30.5 dB

spatial SNR at k = (16, 8) (dB)
